

March 10, 2025

Dear Member of Congress,

The undersigned organizations represent millions of constituents across the country and a diverse slate of interests and sectors. Across these various perspectives, we are united in our ask: we strongly urge you to vote NO on the Republican-drafted continuing resolution (“CR”).

Instead of a bipartisan government funding bill that adequately services the needs of everyday people, this CR poses grave threats to us all. By gutting billions of dollars in critically-needed human needs benefits, health care, affordable housing, clean water and more, this CR will be devastating to many, including veterans, people with disabilities, families, and seniors.

Further, this CR does nothing to address this administration’s actions, particularly those led by Elon Musk’s DOGE, that ignore Congressional directives on how to spend appropriated funds and slash and dismantle the federal government in ways that hurt everyday people while benefiting corporations and the wealthiest.

We urge you to reject this partisan CR that President Trump and Elon Musk will treat as a slush fund to enable and entrench their harmful agenda.

Sincerely,

**National Organizations**
